

SCENARIO 1: FREQUENCY

Major improvements include increasing the frequency of popular routes, simplifying the route network to improve speed and reliability, and improving access to major commercial areas.

This scenario involves changes to CAMBUS, Coralville Transit, and Iowa City Transit routes.

Summary of Improvements

- Service on many routes is shifted onto major streets so it is faster and more direct
- Overlapping routes are reduced, making the system easier to understand
- New 15-minute all-day weekday routes:
 - The Oakcrest (Route 8), Towncrest (Route 9), and new Hawkeye – Hospitals – Pentacrest (Route 32)
 - Approximately 30,000 residents and 30,000 jobs will be within ¼-mile of all-day 15-minute service
- New 20-minute all-day weekday routes:
 - Mall (Route 5)
- Service from densest residential areas in Coralville to Walmart (Route 21)
- Iowa River Landing has direct service to downtown Iowa City and midday weekday service (Route 20)
- Better connections to the Iowa City Walmart from west and south Iowa City (Route 4)
- Routes no longer change their alignments at night and on weekends
- Hawk Lot service is more consistent and frequent throughout the day from the Pentacrest and hospitals

Summary of Impacts:

- Eight Iowa City Transit routes, three CAMBUS, and two Coralville Transit routes are consolidated into other routes
- Several low-ridership areas no longer have service
- Some riders will have a longer walk to their bus stop

SCENARIO 2: SIMPLIFIED COVERAGE

Major improvements include simplifying the route network to improve speed and reliability, while maintaining coverage to most areas served today. This option is most like today's service.

This scenario involves changes to CAMBUS, Coralville Transit, and Iowa City Transit routes.

Summary of Improvements:

- Service on many routes is shifted onto major streets so it is faster and more direct
- Overlapping routes are reduced, making the system easier to understand
- New 15-minute all-day weekday route:
 - Hawkeye – Hospitals – Pentacrest (Route 32)
 - Approximately 23,000 residents and 31,000 jobs will be within ¼-mile of all-day 15-minute service
- The Oakcrest (Route 8) and Towncrest (Route 9) routes operate every 30 minutes later into the weekday nights and on Saturdays
- Iowa River Landing service is extended into downtown Iowa City (Route 20)
- Routes no longer change their alignments at night and on weekends
- Hawk Lot service is more consistent and frequent throughout the day from the Pentacrest and hospitals

Summary of Impacts:

- Four Iowa City Transit routes, four CAMBUS, and one Coralville Transit route are consolidated into other routes
- Several low-ridership areas no longer have service
- Some riders will have a longer walk to their bus stop

SCENARIO 3: RESTRUCTURE & IMPROVE WEEKENDS & EVENINGS (IOWA CITY TRANSIT ONLY)

Major improvements include increasing Saturday and evening service in Iowa City, and also adding limited on-demand service on Sundays for Iowa City and University Heights residents. Iowa City routes would also be restructured to improve route directness and speed.

This scenario involves changes to only Iowa City Transit routes.

Summary of Improvements:

- Service on many routes is shifted onto major streets so it is faster and more direct
- Overlapping routes are reduced, making the system easier to understand
- Approximately 14,000 residents and 28,000 jobs will be within ¼-mile of all-day 15-minute service
- All regular Iowa City Transit routes operate until 10:00 p.m. on weekdays
- All regular Iowa City Transit routes operate longer each Saturday
- On-demand Sunday service is offered in Iowa City and University Heights. Small buses would start in downtown Iowa City every hour and distribute riders throughout Iowa City. Walk-up pickups in downtown would be possible, but a phone call an hour or more ahead would be necessary to reserve a ride.
- All Iowa City Transit routes operate every 30 minutes during rush hour, and all but three routes would operate 30 minutes during weekday midday periods.
- A new Walmart Westside route connects higher-density neighborhoods with the Walmart on Highway 6

Summary of Impacts:

- Seven ICT routes are consolidated into other routes
- Some riders will have a longer walk to their bus stop
- Some neighborhoods are no longer directly served by fixed-route transit
