Endangered Species Endangered Species Act of 1973, section 7; 50 CFR 402	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	Project activities are of the type likely to have "no affect" on a Federally listed endangered or threatened species or its habitat due to project being acquisition of existing structure. However, each project will be examined for any potential to affect endangered species or habitats and federal/state agencies will be consulted if necessary. Upon consultation, the project will either implement any necessary mitigation or a new site will be located.
Explosive and Flammable Hazards 24 CFR 51C	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	The project likely will not include development, construction, or rehabilitation that will increase residential densities or conversion. If it does, project site(s) will be reviewed with a visual search to determine if within sight of or in proximity to above ground storage tanks or facilities that store, handle, or process chemicals or petrochemicals of an explosive or flammable nature, such as liquid propane, gasoline or other above-ground storage tanks. If necessary, appropriate mitigation strategies will be followed.
Farmlands Protection Farmland Protection Policy Act of 1981, sections 1504(b) and 1541; 7 CFR 658	Yes No <input checked="" type="checkbox"/> <input type="checkbox"/>	Project involves already existing structures within City limits in the urbanized area which will be acquired as part of the funded project activity. Therefore, prime farmland, unique farmland, or land of statewide or local importance will not be affected. However, a map documenting that finding will be included.
Floodplain Management Executive Order 11988, particularly section 2(a); 24 CFR 55	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	Each project site will be verified to determine if located within a SFHA as referenced by FEMA FIRM maps. If in a floodplain, an 8-step process will be completed if determined that there are no practicable alternatives to floodplain development, or a new project site will be located. Documentation will include a FIRMette.
Historic Preservation National Historic Preservation Act of 1966, sections 106 and 110; 36 CFR 800	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	Each project site will be subject to a Section 106 review process to determine the historic impact of the project. SHPO and tribal entities as applicable will be consulted. All requirements identified by the review will be followed and completed before the project will be eligible for funding.
Noise Abatement and Control Noise Control Act of 1972, as amended by the Quiet	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	Project site(s) will be reviewed for potential noise generators within the vicinity of the project. As required, noise assessments will be performed in

Communities Act of 1978; 24 CFR 51B		accordance with the Noise Assessment Guidelines and any mitigation identified.
Sole Source Aquifers Safe Drinking Water Act of 1974, as amended, section 1424(e); 40 CFR 149	Yes No <input checked="" type="checkbox"/> <input type="checkbox"/>	Project is not located within area of an EPA-designated sole source aquifers in Iowa. See documentation in ERR Binder.
Wetlands Protection Executive Order 11990, sections 2 and 5	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	Information for each project site will be verified on the U.S. FWS wetland mapper to determine if the project is within or will have an impact on designated wetlands. An 8-step process will be completed if determined that there are no practicable alternatives to wetlands development or a new project site will be located.
Wild and Scenic Rivers Wild and Scenic Rivers Act of 1968, section 7(b) and (c)	Yes No <input checked="" type="checkbox"/> <input type="checkbox"/>	Project is not within 1 mile of a designated Wild & Scenic River, or river being studied as a potential component of the Wild & Scenic River system. See documentation in ERR Binder.
Environmental Justice Executive Order 12898	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	The project will be reviewed for its environmental impacts by using the EPA's Environmental Justice Mapper Report to compare demographic data and identify adverse health or environmental effects disproportionately impacting minority and low-income populations. If any adverse impacts, mitigation measures must be proposed and accepted including documentation of providing information to the community and participation in the planning process to address the effect.

Attach supporting documentation as necessary, including a site-specific checklist.

Determination:

- Extraordinary circumstances exist and this project may result in significant environmental impact. This project requires preparation of an Environmental Assessment (EA); OR
- There are no extraordinary circumstances which would require completion of an EA, and this project may remain CEST.
